LAUDO PERICIAL ATUARIAL

1:- INTRODUÇÃO

O presente trabalho, tem como objetivo verificar se os procedimentos adotados pela Ré, para cálculo e atualização do valor de resgate do Autor obedeceram aos pressupostos básicos da Ciência Atuarial, bem como os dispositivos legais e contratuais..

O laudo foi elaborado de modo a atender aos quesitos formulados pelas partes.

Foram efetuados exames periciais atuariais em todos os Estatutos e Regulamentos praticados pela Ré, bem como na legislação previdenciária aplicável.

Neste sentido, a perícia em tela, de caráter estritamente atuarial, foi balizada pela necessidade de se resguardar dois princípios atuariais primordiais:

- a. **Princípio da Equivalência Atuarial:** o valor atual, avaliado à taxa de juros convencionada na Nota Técnica Atuarial, da renda constituída pelas receitas deve igualar o valor atual da renda constituída pelas despesas de benefícios. Entre as receitas mencionadas, deve incluir-se o patrimônio líquido da Ré, e entre as despesas mencionadas deve incluir-se as despesas de gestão e sobrecargas de segurança.
- b. **Princípio da Solvência:** o montante das receitas previstas atuarialmente para um lapso qualquer, contado a partir da data da avaliação, não pode ser inferior ao montante das despesas previstas, também atuarialmente, para esse mesmo lapso.

3:- BREVE RESUMO DOS AUTOS

3.1:- DA INICIAL

A Ré é uma entidade fechada de previdência privada, cujo plano de previdência complementar era, na época, regido pela lei 6435/77, e atualmente, pela Lei Complementar 109 que disciplina o funcionamento das entidades de previdência fechada, como a Ré.

O Autor era participante do Plano de Benefícios Previdenciários da Ré, até que pleiteou, com base nas disposições estatutárias, o pagamento da “reserva de poupança”.

Entretanto, o Dr. Advogado do requerente afirma que a Ré efetuou o pagamento de quantias que não correspondem à totalidade das contribuições deduzidas/depositadas em seu favor durante todo o pacto laboral, nem mesmo procedeu à correção das mesmas em consonância com os índices inflacionários apurados no período.

Diante da situação, requer o Autor, no âmbito atuarial:

- e) a pugnação do julgamento pela procedência do seu pleito deduzido na inicial, para ser declarada a nulidade dos índices

empregados na correção da soma total das contribuições, deferindo a atualização pelo INPC até a data do resgate, entendida como valor de resgate e juros de 0,5% ao mês, até a entrada em vigor do Novo Código Civil e, a partir de então, 1% ao mês, desde a citação até a do seu efetivo pagamento, tudo, a ser apurado em liquidação de sentença, por arbitramento e o resgate, em favor dos autores, do valor total de suas "reservas de poupança", acumulado até a presente data;

4:- DECISÃO (FLS.1202)

"

...

Fixo com ponto controvertido a validade dos índices empregados na contribuição até a data do resgate.

Defiro a prova pericial atuarial ..

...

"

5:- RESPOSTAS AOS QUESITOS DA PARTE AUTORA (FLS.1215)

5.1:- Quesito 01: Qual o índice previsto no Termo de Adesão ao PLANO PRECE assinado pelos Autores?

Resposta: Com base no Regulamento de Benefícios da Ré (Plano Prece 1), em seus itens 44 e 44.3, os índices de correção monetária lá previsto para a hipótese de devolução das parcelas vertidas pelo participante em caso de sua retirada são:

De 01.01.1983 a 31.01.1989: variação da ORTN;

De 01.02.1989 a 28.02.1991: variação do BTN;

De 01.03.1991 até a data de aprovação do Regulamento (09.11.1998): BTN atualizada pela Taxa Referencial (TR);

A partir da data de aprovação do Regulamento (09.11.1998): INPC.

5.2:- Quesito 02: Estão corretos os cálculos apresentados pela ré?

Resposta: Sob o ponto de vista legal a matéria é das Ciências do Direito.

Sob o ponto de vista atuarial a análise pericial não identificou erro material.

5.3:- Quesito 03: Existe algum fundamento legal que embase os argumentos da ré?

Resposta: Matéria das Ciências do Direito.

6:- ESCLARECIMENTOS ATUARIAIS COMPLEMENTARES

6.1:- Originalmente a Ré, PRECE, administrava apenas o Plano PRECE-1 da modalidade Benefício Definido, no qual os Autores aderiram em 1983. Posteriormente, 15 anos após a criação do PRECE-1, a Ré instituiu um novo plano, o PRECE-2, também da modalidade Benefício Definido. Finalmente, em MAI/2011 a Ré criou um terceiro plano, o PRECE CV, desta vez da modalidade Contribuição Variável.

6.3:- No plano PRECE-CV da modalidade Contribuição Variável o valor do benefício é determinado na data da aposentadoria como sendo o saldo individual das contribuições (empregado e empregador) acumulado e capitalizado até a data da aposentadoria. Desse modo este tipo de plano é muito menos sensível aos riscos de natureza atuarial, mantendo-se equilibrados ao longo do tempo.

6.3:- Já nos planos PRECE-1 e PRECE-2 nos quais os Autores se inscreveram, ambos da modalidade Benefício Definido, o valor do benefício de aposentadoria é previamente definido em função na data de inscrição ao plano. Em geral por um regra do tipo "média dos últimos salários corrigidos menos o benefício do INSS". Ou seja, o benefício independe do volume final de contribuições acumuladas e capitalizadas até a data da aposentadoria. Em virtude do descolamento entre o valor do benefício e o volume de contribuições capitalizadas este plano são fortemente expostos à desequilíbrios atuariais.

6.4:- O Demonstrativo Atuarial - DA de DEZ/2009, às Fls. 485, registra que o Plano PRECE-I tem um compromisso com pagamento de benefícios no valor de R\$ 1.583.611.342,76 (Reservas Matemáticas) contra um Ativo Líquido (contribuições acumuladas e capitalizadas) no valor de R\$ 949.112.607,21, registrando, portanto, um déficit atuarial de R\$ 634.498.735,55. Ou seja, evidencia-se uma insuficiência patrimonial da ordem de 67%.

6.5:- Na Nota Técnica Atuarial do Plano PRECE I, às Fls. 710, verifica-se que 45,77% do referido déficit foi equacionado com contribuições extraordinárias dos participantes ativos. Para cada R\$ 1,00 real de contribuição normal corresponde R\$ 12,22 de contribuição extraordinária para equacionamento do déficit.

6.6:- Muito provavelmente, tamanho ônus levou os Autores ao pleito da ação em tela "retira-se dos planos PRECE I e PRECE II recebendo as próprias contribuições de volta com correção monetária e juros".

6.7.- DA APURAÇÃO ATUARIAL DAS CONTRIBUIÇÕES

6.7.1.- TANIA REGINA PATROCINIO MELO DE ANDRADE
